

**Project Category: Breach Attack Simulation, System/Server Administration, Vulnerability Assessment, SOC**

Project Name	Keysight Cyber Range Solution Deployment
Client Name	Tata Advanced Systems Limited, Govt. Of Rajasthan
Industry	Government, Cybersecurity, Department of IT & Communication
Challenges (Work)	Tata Advanced Systems Limited reached out to us because they have an active long term project for Rajasthan Government for deployment, maintenance and security assessment of Keysight Cyber range solution.
Type	Server Administration, Network Security, Breach Attack Simulation, Digital Forensics, Vulnerability Assessment
Project Duration	3 Years
Outcome	Government of Rajasthan hired Tata Advanced Systems Limited for a long term project for deployment of Keysight Cyber range solution and Tata hired us to do this. These solutions include a total of three solutions. First is Keysight Threat Simulator, Keysight Cyber Security Operation Center and last one is Breach Attack Simulation appliance and solution. We are responsible for operation and management of these three solutions and we also deliver cybersecurity training for Government Officials.
