

**Project Category: Corporate Training, Cybersecurity Training ,  
Vulnerability Assessment, Purple Teaming**

Project Name	Cybersecurity Corporate Training
Client Name	PRP Technologies, Ahmedabad
Industry	Cybersecurity, Education, Corporate Training, EduTech
Challenges (Work)	TheWebOrion Innovations reached out to us because one of their clients, PRP Technologies, wanted us to train their employees and students about cybersecurity, red teaming and purple teaming.
Type	Cybersecurity, Corporate Training, Red + Blue Teaming , In House Security Team Training, Vulnerability Assessment
Project Duration	3 Months
Outcome	TheWebOrion Innovations is one of our collaborator companies and they hired us to deliver high quality and hands-on training to their client PRP Technologies. We first send a PDF manual that contains all processes and step by step instructions how we deliver and how we do. At each weekend, we also conducted doubt solving what they learn and conducted one bug bounty class for better understanding how companies trusts hackers to secure their organisation and how actually cybersecurity works in real life.
